## Event Details

# Hillsborough County Transportation Vulnerability Assessment Pilot Project Stakeholder Meeting

**Wednesday, October 16**
Meeting Topic - Project introduction: review goals and objectives; criticality screening; and data sources

**Date:** October 16, 2013

**Time:** 1:30 PM - 4:00 PM

**Address:** County Center 20th Floor, Room 2028D
601 E. Kennedy Blvd.
Tampa, FL 33602

Invite Friends

BOARD OF COUNTY COMMISSIONERS
Kevin Beckner
Victor D. Crist
Ken Hagan
Al Higginbotham
Lesley "Les" Miller, Jr.
Sandra L. Murman
Mark Sharpe

Hillsborough County
Florida

Office of the County Administrator
Michael S. Merrill

CHIEF ADMINISTRATIVE OFFICER
Helene Marks

CHIEF FINANCIAL ADMINISTRATOR
Bonnie M. Wise

DEPUTY COUNTY ADMINISTRATORS
Lucia E. Garsys
Sharon D. Subadan

**Local Mitigation Strategy Working Group**
**Communitywide Review Committee**
**Stewardship: Hillsborough County Public Works Hazard Mitigation Program**

Agenda for October 16th, 2013
1:30pm-2:00pm
20th Floor, Room 2028D

# Hillsborough County Transportation Vulnerability Assessment and Adaptation Pilot

Hillsborough County MPO and its partners are leading a climate change vulnerability assessment and adaptation pilot, focused on the transportation sector. This project is sponsored by the Federal Highway Administration (FHWA).

## Purpose

Hillsborough County transportation infrastructure and operations have been severely impacted by extreme weather events in recent years, causing damage, deterioration, and significant disruptions to the movement of people and goods. In the future, many of these risks are projected to increase in severity and/or frequency. It is crucial to factor potential future climate conditions into today's management and investment decisions to help cost-effectively manage these risks over the long term.

## Approach

This project will support the incorporation of climate risk and resiliency information into existing transportation planning and investment processes. Specifically, this project will identify potentially vulnerable transportation infrastructure and develop adaptation strategies for a selection of critical assets. These strategies will be recommended for the MPO's 2040 Long-Range Transportation Plan.

- **Phase 1:** Collect data, identify potential extreme weather vulnerabilities.
- **Phase 2:** Identify critical, vulnerable infrastructure (5-10 high-risk assets) for adaptation.
- **Phase 3:** Develop adaptation (risk mitigation) strategies for a selection of high-risk assets.
- **Phase 4:** Document findings, recommendations.
- **Knowledge Exchange:** Partners and stakeholder involvement is crucial to each phase.

Expected completion: Summer 2014.

THE PLANNING COMMISSION

**Local Mitigation Strategy Working Group (LMS WG) Meeting- Communitywide Review Committee Stewardship:**
**Hillsborough County Public Works Hazard Mitigation Program Meeting Summary**

Meeting Date | Time October 16, 2013 1:30pm to 4:00pm | Meeting Location 20th Floor. Room 2028D

***Agenda Topics***

Time Allotted | 1:39pm-1:46pm | Agenda Topic Overview Welcome & Introductions/ Purpose, Charge, Approvals, and Review Past Meeting

*Discussion:*

- Introduction of the attendees began at 1:39pm. Overview of the FHWA study. Information was given regarding the value of the Local Mitigation Strategy (LMS) and the value of input by the LMS WG; as well as, knowing it is a Board of County Commissioners sanctioned group. Discussions ensured regarding general business that included the membership, nominations, critical facilities, listing of projects, and the County's submittal of the elected Chair and Vice Chair and the list of projects to the Board of County Commissioners for approval no later than January 2014 (the agenda item to the Board will be drafted in November or December 2013).
- With respect to floodplain management, cities of Tampa and Temple Terrace are currently rate 6 under the National Flood Insurance Program, Community Rating System (CRS). The County has a rating of 5 (the lower the rating the higher the discount off Federal flood-insurance policies within the Special Flood Hazard Area).
- The County sustained its CRS rating following the three-year cycle visit, which is a full review of all activities performed by the Board of County Commissioners agencies, which provides greater than $6 million in discounts off Federal flood-insurance policies within unincorporated areas of the county. Many agencies and teams contributed. The County also completed the annual CRS re-certification process for 2013, which was deemed successfully completed by FEMA's subcontractor charged with the review.
- The County's annual CRS Outreach Strategy was reviewed and was voted to be continued for the coming year as it was reviewed. The review consisted of the outreach strategy outlined within the Hillsborough County's Floodplain Management Plan. Discussions ensured regarding various floodplain management components and activities associated with the program.
- Minutes from the past meeting will be provided for the next meeting scheduled for November.
- Hazard Mitigation Grant Program awards for Tropic Storm Debby included the Tampa General Hospital. The grant award was to fortify certain parts of the Tampa General

Hospital. Discussions included other projects that were submitted under Tropical Storm Debby and Hurricane Isaac.

- Other mitigation outreach programs were discussed that included information regarding the Citizen Corps Council and associated topics, the County's Neighborhood Programs, Post Disaster Redevelopment, and Emergency Management. Regarding the Post-Disaster-Redevelopment-Plan, the County is working with the University of South Florida to have the Technical Advisory Committees rejuvenated and the County has developed a draft table-of-organization that illustrates interconnectivity of roles under the Redevelopment Coordinator.
- In 2014, the LMS WG will begin the update to the LMS, which will incorporate consequence management for some areas of vulnerability. Other discussion ensured regarding the update and other associated documents that will require addressing with the update. Further, processes will be identified within the LMS to show how to integrate funds allocated under the Stafford Act with funds allocated under Public Assistance following a disaster, which will assist in having infrastructure built to a higher standard following a Federally declared event.
- Minutes for this meeting will be completed and sent out by the end of the week. 404 and 406 funds will be mixed (mixing these needs to be planned out).

Time Allotted | 1:50pm-2:23pm | Agenda Topic Overview New Business

*Discussion:*

- The Annual CRS project has been uploaded to the County's website and has been made available for public review. The report was approved by the Board of County Commissioners; however, some task attested to as continued sanctioned activities were identified as being delayed due to the transition of systems within the County.
- A poll was taken to determine whether to continue using the current CRS Outreach Plan, The poll result was a unanimous yes.
- A review of the depth of tidal surge associated with Tropical Storm Andrea was analyzed. The County used contour data and compared it to the storm surge (3-4ft). The analyses showed the possibly affected parcels at 3,900 parcels – parcels but not necessarily structures. County field verification showed the GIS data gave results that were very accurate to what actually happened in the county. If the storm surge would have been five feet, the storm surge would have reached many structures.
- An assessment and contact had been made in the previous year to severe repetitive-loss property owners within unincorporated Hillsborough County. It is anticipated that this year's grant-application cycle will yield grant beneficiaries. The State performed one application for a resident outside of the County's process.

- The County updated the Flood Damage Control regulations due to a Physical Map Revision for the eastern Deleny Creek Watershed.
- FEMA is updating all coastal maps within Hillsborough County.
- The Biggert Waters Insurance Reform Act of 2012 may have an effect on an estimated 20 to 30 thousand properties within Hillsborough County.
- Currently, Susan Mueller is serving as the Vice Chair and Randy Goers is the Chair LMS_WG. Consensus via email will be settled and discussed at the next meeting.
- Currently, the County is about to get underway on an assessment of floodways to identify minimal impacts.
- Potential impacts of flood insurance policies based on primary and secondary homes information discussed in the meeting is available through PowerPoint. This presentation discusses the Congress' policies regarding flood insurance. This document is pending change depending on what Congress decides in the next couple of weeks. If you're interested in a copy, please contact Gene Henry.
- Discussion ensured regarding LMS WG nominations and the projects list.
- Finally, it was solicited that if you wish to remain or be removed from the LMS WG, please let Gene know.
- The next meeting will be of a smaller scope and will include business regarding the nomination of the Chair and Vice Chair and the listing of projects to be included with the LMS submittal to the State.

**Federal Highway Administration (FHWA) Vulnerability Assessment & Adaptation Pilot Project**

***Agenda Topics***

Time Allotted | 2:23pm-2:28pm| Agenda Topic: Introduction to the Project

*Introduction*

Allison Yeh:

- Climate change vulnerability assessment and adaption pilot on the transportation. The project goals are to:
  - Systematically incorporate climate risk and resiliency info into transportation planning and investment process.
  - Help Identify adaptation (climate risk mitigation) strategies for incorporation into the MPOS 2040 Long Range Transportation Plan

Time Allotted | 2:28pm-3:53pm| Agenda Topic: Criticality Assessment Process, Transportation Data Assessment, and Next Steps

Hillsborough County
Florida

Office of the County Administrator
Michael S. Merrill

THE PLANNING COMMISSION

*Discussion*

Josh DeFlorio

- Cambridge systematics wants local expertise to be able to understand the transportation system in the Tampa area
- We are 6 weeks into the project
- Project Scope is to:
    - Identify potentially vulnerable transportation infrastructure
    - Develop adaptation strategies for a selection of critical assets
    - Strategies will be incorporated into the current plans- we are not reinventing the wheel
- The project is federally funded by the FHWA
- There is significant latitude to the assessment; the framework is iterative, more latitude in constructing the process.
- It is a four phase framework:
    - Phase I: Data collection and criticality assessment process
    - Phase 2- identify critical, vulnerable infrastructure (5-10 high risk assets) for adaptation
    - Phase 3- develop adaption (risk mitigation) strategies for a selection of high-risk assets
    - Phase 4- document the findings and recommendations
- Sea level rise data is being retrieved from UF and other data is also coming from FAU
- Hillsborough County (Sea level rise data under NOAA and Hazard Mitigation) also has some data that could be useful to Cambridge (suggested by an LMS_WG member)
- Role of the LMS_WG
    - Provide local and regional perspective on the functional economic, and quality of life aspects of the project
    - Provide technical guidance as part of TAC (Technical Advisory Committee)
    - Ensure the practicality of the study to the Tampa Bay region
    - Allow for risk assessment incorporation into current and future projects.

*Criticality Assessment Process- Points below regarding this process:*

- Screening process (phase 1) - definition of criticality: that you believe as a community that one transportation system is more valuable than others.
- A preview of potential consequences of damage- helps to conceptualize the impact to the region
- Overview of the assessment:

- Step 1- make more informed decisions regarding transportation networks and their changes. It is meant to facilitate decision making within the region. Trip table- show connections between one traffic analysis zone to another (millions of origin destinations) - these are connected together. Vulnerability is something that has not been considered in projects (response to LMS_WG question).
- Step 2: using products of step 1, facilitate a dialogue among stakeholders. Repurpose travel demand model- it will incorporate the criticality assessment process.

*Group Brainstorm- People need access to and from:*

- Their jobs and homes
- Tourism
- Evacuation Routes
- Healthcare
- Consumer services
- Transit
- Agricultural (orange, phosphate)
- Amazon
- Port
- MacDill AFB
- Goods: Foods, chemicals, industrial-ethanol, coal
- Distribution centers
- Manufacturing: export/import
- Access to supply chain
- Power plants
- Utilities
- Communications facilities

*What's Next*

- Present analysis to ask for input from the LMS_WG
- Evaluate 5-10 critical assets

*Transportation Data Collection*

- Process that we are in right now
- Inquiries will be forthcoming to the LMS_WG for missing data sources ( A list is below:

- Planned transit and/or rail facilities
- Tunnels(road/rails)
- Maritime facilities
- Inland flooding

*Next Steps: Conclusion*

- Critical asset selection will be the topic of the Nov. 4th meeting
- Upcoming project activities
- Volunteers for Technical Committee TAC (please email Allison if you're interested in participating)
- Identify and leverage all of the available data
- In Kind Contributions have been sent to account for LMS_WG via email. Please keep track of your volunteering time with this group. This is an essential part of the pilot study.

*Additional topics/questions from meeting participants*

- Critical Regional Connections will be considered (e.g. bridges between Hillsborough and Pinellas County)
- Tampa has a catalog of critical infrastructure
- Port and Airport
- LMS group can recommend projects for funding if it is on the LMS working group list
- Define how criticality is used for this study
- Utilize existing HC Geometrics data
- May need GIS overlay for post disaster redevelopment areas

# FHWA Transportation Vulnerability Assessment Pilot Study Meeting

| | |
|---|---|
| **Date:** | December 10 |
| **Time:** | 2:15 PM - 4:30 PM |
| **Location:** | 22nd Floor, Room 2202E |
| **Address:** | 601 E. Kennedy Blvd.<br>Tampa, FL 33602 |

**Tuesday, December 10**

The purpose of this meeting is to review the annual Local Mitigation Strategy update requirements, approve submittals to the State as appropriate, review preliminary process that will be used to assess the susceptibility of certain transportation systems to potential future flooding, and review analysis of critical transportation infrastructure from the Federal Highway Administration Resiliency Pilot Project.

# Agenda

## December 10, 2013

***1:30 pm-4:30 pm***
***22nd Floor, Room 2202E***

***Local Mitigation Strategy Working Group***
***Review of Annual Local Mitigation Strategy Update Requirements***

***FHWA Vulnerability Assessment and Adaptation Options***
***Results of Criticality Screening; Preliminary Vulnerability Assessment;***
***Selection of Critical Assets for further Study***

| Agenda Item A | Presenter | Time |
|---|---|---|
| **Open and Introductions** | Randy Goers | 2 mins |
| **List of Offices (Chair and Vice Chair)**<br>• *Nominations*<br>• *Election* | Eugene Henry | 10 mins |
| **Project Priorities** | Eugene Henry | 10 mins |
| **Status of LMS Documents**<br>• *Minutes*<br>• *Advertisements*<br>• *Repetitive Flood-Loss List—CRS and NFIP*<br>• *Summary of CFI*<br>• *Other Documents—No Change*<br>  ○ *Hazard Assessments*<br>  ○ *Maps* | Eugene Henry | 10 mins |
| **Set Next Meeting Date** | Eugene Henry | 2.5 mins |
| **Adjourn**<br>• Break time for next agenda items related to the pilot study | Eugene Henry | 5 mins |

| Agenda Item B | Presenter | Time |
|---|---|---|
| **Project Overview**<br>• *Re-Introduction to the Scope of Work*<br>• *Overview of Today's Agenda* | Allison Yeh/ Josh DeFlorio | 5 mins |
| **Illustrative Results of Criticality Screening Process**<br>• *Review of Criticality Definition/Criteria*<br>• *Base Year Results/Analysis Year Results (2040 & 2060)* | Josh DeFlorio | 20 mins |
| **Preliminary Vulnerability Assessment**<br>• *Overview of Approach*<br>• *Preliminary Results of Inundation Exposure Analysis* | Josh DeFlorio | 20 mins |
| **Selection of Critical/Vulnerable Transportation Assets for Study**<br>• *Purpose of the Asset Selection Exercise*<br>• *Interactive Group Exercise: Select Assets for further Study* | Josh DeFlorio/ Katie Habgood | 40 mins |
| **Next Steps**<br>• *Topics for the Next LMS_WG Meeting*<br>• *Upcoming Project Activities* | Josh DeFlorio/ Allison Yeh | 5 mins |
| **Additional Questions (Optional)** | Josh DeFlorio/ Allison Yeh | 40 mins |

*Please visit the planning commission site for more information on the items, such as the agenda, that will be covered in our upcoming meetings:* http://www.planhillsborough.org/hillsborough-transportation-vulnerability-assessment-pilot-project/

## Remote Meeting Information

1. Please join my meeting, Tuesday, December 10, 2013 at 1:30 PM Eastern Standard Time.

THE PLANNING COMMISSION

**Local Mitigation Strategy Working Group (LMS WG) Meeting- Hillsborough County Public Works Hazard Mitigation Program Meeting Summary- Part A**

Meeting Date | Time December 10, 2013 1:30pm to 2:10pm | Meeting Location 22nd Floor. Room 2202E

***Agenda Topics***

Time Allotted | 1:37pm-2:17pm | Agenda Topic- Open and Introductions / Project Priorities/ Status of LMS documents/Next Meeting

*Discussion:*

Open and Introductions

- LMS WG called into order at 1:37pm
- Randy Goers – Open and Introductions
  - Nominations – forms for nominations were passed out. Randy Goers is the current chair and only nomination for the next chair. Susan Mueller, the current vice chair, is no longer able to be vice chair. She has nominated a vice chair. One added nomination was submitted for Moris Cabezas from AMEC Environmental & Infrastructure. Other nominations for either position are welcomed. Return the form. Election and final decisions will be made within the next 2 weeks.
  - Eugene (Gene) Henry, Local Mitigation Strategy Coordinator
    - Chair and Vice-Chair positions discussed
    - Mitigation Plan and Florida Sunshine rules were discussed. The LMS WG is a sanctioned group and the meeting was properly noticed.

Project Priorities

- Project List
  - Projects reviewed
  - Two new projects submitted by the City of Tampa
    - Storm water projects to alleviate flooding
      - Dale Mabry and Henderson
      - El Prado and Manhattan
      - LMS WG approved for inclusion into the project list
  - Project list was voted upon and approved for the annual submission
- Added News
  - Work to complete grant applications for the 2014 storm season
  - Reminder about the Cost-Benefit analysis for each grant-application submittal

Status of LMS Documents

- Past minutes distributed and it was identified to send any updates to Susana
- Advertisements for current and past meetings discussed and verified as compliant
- Repetitive Flood Loss- Hillsborough County (government removed subsidies) is looking at the effects of this.
    - Repetitive Flood Loss definition given and identified current known list
    - Map of areas reviewed
    - National Flood Insurance Program and Floodplain Management Plan was discussed
    - Community Rating System and associated outreach discussed. Current ratings and savings discussed
- Summary of update associated with the community-wide Critical Facilities Inventory given
- Other documents discussed
    - Hazard Assessments – no change
        - LMS annual and five-year update discussed
        - PDRP Discussed
    - Maps discussed – no change
    - Other LMS documents and new business
        - City of Tampa opened discussions
            - Oliver Greene opened discussion
                - Sinkholes – it was identified Hillsborough County has a newly adopted ordinance regarding sinkholes
                - Update to the LMS to meet certification process
            - Mike Gocka requested information regarding upcoming Local Mitigation Strategy (LMS) Updates
                - Beginning now to meet needs of the update of the Comprehensive Plan
                - Update to risks analyses and vulnerability assessments expected to begin in mid-2014

Next Meeting

- To be with the next update to the MPO Resiliency Project
- If votes are required for any approvals, a digital voting-process will be used

Adjourned

- 2:17 p.m.

**Local Mitigation Strategy Working Group (LMS WG) Meeting- Hillsborough County Public Works Hazard Mitigation Program Meeting Summary- Part A**

Meeting Date | Time March 11, 2014 1:30pm to 2:15pm | Meeting Location 22nd Floor. Room 2202E

***Agenda Topics***

Time Allotted | 1:32pm-2:15pm | Agenda Topic- Open and Introductions / Schedule for LMS Update/ Potential LMS Working Group areas of participation/Next Meeting

*Discussion:*

Open and Introductions

- LMS_WG called into order at 1:32pm
- New vice-chair: Angie Leslie- Called the meeting into order
- Randy Goers, Chair, called to identify that he was unable to attend the meeting due to a conflict.

Schedule for LMS Update

- November 4, 2014 -- Final Draft for State Review due in Tallahassee
- May 4, 2015 -- LMS Update due to FEMA

Potential LMS Working Group areas of participation

- Subcommittee
    - Possible added groups within the Subcommittee -- areas of assignments
        i. Planning process -- goals and objectives
            - Planning process of the LMS is available online- Moris Cabezas
            - Risk reviews
            - Data and analysis
            - Membership review
            - CRS program needs -- new manual (coordinate with Regional CRS Group)
                a. CRS subset of National Flood Insurance
                    i. 10 million dollars annually are received
                    ii. Ten step process must be followed
                    iii. Federal requirements need to met
            - Local and Community Outreach
            - Mitigation techniques
            - Critical facilities
            - Code changes
            - PDRP integration (County)
            - City of Tampa and Hillsborough County Floodplain Management Plans

BOARD OF COUNTY COMMISSIONERS

- Projects- Ensure that items regarding the LMS are only discussed during formal meeting times due to the group's Sunshine rule status.
    a. Accomplishments
        i. Completed
        ii. Outstanding
        iii. To be removed or re-ranked
    b. New targeted projects
    c. Critical projects
    d. Susan, Angie and Steve are in charge of looking at the critical facilities
    e. Stormwater
- Funding sources
- Repetitive flood-loss areas

- CRS 10-step Planning Process
    - Outreach
    - Floodplain Mgmt Plans
- LMS WG meetings 2014
    - Board and cities
    - Steering Committee
    - CAC
    - Planning Commission
- Other Hazards
    - CWPP
    - Climate change
    - Sinkholes
    - DFIRM updates

Meeting Dates

- LMS Meetings-- a list of dates will be sent shortly
    - May 6th
    - August 7th
    - October 23rd
    - November 20TH

Governance Project Updates

- Susana Alvarado discussed the updates of Dr. Ersing's class. Please refer to the PowerPoint presentation for more information on these updates.

Adjourned

- 2:15 p.m.

METROPOLITAN PLANNING ORGANIZATION FOR TRANSPORTATION

# Federal Highway Administration (FHWA) Vulnerability Assessment & Adaptation Pilot Project Meeting Summary

***Agenda Topics***

Time Allotted | 2:05pm-3:30pm | Agenda Topic- - FHWA Vulnerability Assessment and Adaptation Options Results of the Critical/Vulnerable Infrastructure Identification Exercise

Actual time: 2:18pm-3:42pm

**I. Project Update**

- Fourth and final engagement of the project. Last september. Under
- 80-85% completion

**II. Reintroduction to the Scope of Works**

a. Brief recap of the project goals
Climate change vulnerability assessment and adaptation pilot focused on adaptation pilot. Presenting the results to the MPO and in September to the FHWA. Full documentation will be available then. This is just the flavor of the results. The technical memorandum will be available then.
First phase- collecting data. Has been a process extending into all of the phases
15 of the 17 flood basins were incorporating into the study
The last two will be available in June 12, 2014 and we will try our best to include into the final phase of the study. Vulnerability assessment
Second phase- infrastructure vulnerabilility, exposure analysis. December meeting had an exercise with dots to identified these areas (22 total- 6 narrowed down).
Third phase- mitigation strategies. Deep into this phase.
Fourth phase- document findings, recommendations, feedback and comments to prepare it for presentation to the FHWA. Will be distributed this summer 2014 through the MPO.

b. Overview of agenda

**III. Incorporating resilience into the 2040 Long Range Transportation Plan**

a. How can performance measures help us target limited resources?
   - **i. Preserve exisiting systems**
   - ii. Reduce crashes and vulnerability- Program dollars towards this bucket
     1. Local elected officials
     2. Investing
     3. November adoption of the plan
   - **iii. Minimize congestion for drivers and shippers**

iv. **Expand alternatives to driving**
v. **Support growth of Economic activity centers**

IV. **Pilot: Preliminary results of vulnerability assessment and adaptation analysis**

a. Step I: Develop risk scenario. TBRPC helped immensely with the modelling. Tarpoon Springs event 1981.
b. Step II: Assess potential disruption impacts
   - Baseline/Fully recovered:
   - Full Disruption
   - Etc.
   - Estimate changes in (leisure travel is weighted not as significantly as the other travels).
     - Vehicle miles traveled
     - Vehicle hours of delay
     - Trips (focus on trip losses).
   - REMI considers direct, indirect, and induced impacs of transoirtation disruption scenarios, using changes in VMT (not central), delay, and trips. Impacts are measured in terms if weekly work whours, income. And gross regional product. Next steps: estimate range of potential disruption for each scenario (Steven C.- After action report 2004).
c. Step III: Risk Mitigation Investment Scenarios
   i. Strategy type (Baseline, Tier I (Interstates), and Tier 2 (+Arterials)).
   ii. Limit **Exposure**
   iii. Mitigate **Sensitivity**
   iv. Enhance **Adaptive Capacity** (recovery)
   v. Next steps: estimate disruption mitigation benefits of strategy packages

V. **LRTP: Results of risk mangement investment analysis**

a. Illustrative Results (all segments except last; only covering 2).
   i. **Memorial Highway**- GRP: $19.7 MM
   ii. **South 20th/22nd**- GRP: $4.6 MM
   iii. Selmon Expresway
   iv. Gandy Boulevard
   v. Courtney Campbell Causeway
   vi. I-75 Alafia River (bridge)

VI. **Next Steps**

- Rich Clarendon- More detailed, resiliency (see LRTP Needs Assessment notes).

---

Hello LMS Working Group,

We have scheduled our next meeting (agenda included) as we begin the 2015 updates to the LMS. Please bring any input or questions you may have as we begin to move forward.

Looking forward to seeing everyone Tuesday, August 5th, 2014 at 10:00am. If you have any questions prior to the meeting please feel free to call or email me.

Thank you.

Mike

Michael Rimoldi, MPA, CFM

Hillsborough County
Florida

**Infrastructure and Development Services**
**Public Works Department, Technical Services Division, Hazard Mitigation Program**

**Local Mitigation Strategy Working Group**
**Community Rating System Committee**
**Meeting Notes from Aug. 5, 2014 meeting**

Notes:

I. Welcome and Introductions
- The LMS WG meeting was called to order at 10:03 am
- LMS Coordinator Randy Goers called the meeting to order and the first round of business involved introduction of the chair, vice-chair and subcommittee followed by self introductions of all those present including four individuals who were call-ins.

II. Local Mitigation Strategy 2015 Update
- Scope
  - Discussion was held as to the importance of the Local Mitigation Strategy and the desire to make it more of a useful tool for both homeowners and business owners.
  - The inclusion of information from the non-profit organization, the Federal Alliance for Safe Homes – FLASH (www.flash.org) in the mitigation sections to be developed of the LMS. FLASH has developed material on mitigation techniques useful for homeowners.
  - Discussion was made into the preliminary conceptualization of the LMS Interactive Tool. (See accompanying handout.) This is in the very initial planning stages so changes, revisions, etc are expected. The overall idea is to make the LMS a working tool in the future.
- Floodplain Management Plan and CRS Participation
  - There were some questions regarding flood-insurance rates and potential changes in the next few years. There was also a question regarding the application of the LMS for post-disaster relief fund guidance. The LMS is the guiding document for all jurisdictions usage of post-disaster redevelopment funds.
  - Responses given to flood map questions regarding the work of FEMA and the current map update.
- Deadline for Updates
  - The deadline to have the LMS submitted to the BOCC for approval and a subsequent submittal to the State was identified as January 2015.
- Update on Progress

- The upcoming public outreach meetings were discussed and both citizen as well as LMS Working Group involvement was highlighted. Both are integral to disseminating information in the LMS.
- The update to the CEMP, Comprehensive Emergency Management Plan was mentioned and one of the highlights with vulnerable populations of the area.
- The request was made from jurisdictions in attendance to consider having future public outreach meetings within each city (City of Tampa, Temple Terrace, and Plant City). This will be researched and hopefully can be done in the second round of outreach meetings in October or November.
- The request was made that updated demographic information be presented at future LMS WG meetings.
- Demographic related research is being sought with the University of Florida Bureau of Business Research and the University of South Florida Center for Urban Transportation Research.
- The governance document prepared by the Dr. Ersing's, University of South Florida graduate class (2013) will be distributed. In addition, discussion was held regarding the rejuvenation of the governance subcommittee\group. The request was made for consideration that this information be presented at a future LMS WG meeting.

III. Grant Applications

- Two Hazard Mitigation Assistance grant Severe-Repetitive Loss applications are currently in submittal\approval stage.

The meeting adjourned at 11:25 am.

Attendees: Angie Leslie, Barbara Spaulding, Brenda Hood, Chin-Feng Ho, Christina Hummel, Erinn Skiba, Manny Perotin, Matthew Lewsi, Michael Rimoldi, Mike Ryan, Pamela Bartley, Eugene Henry, John Forest Turbiville, John Newton,Robert Gordon, Robin Caton, Steven Catsonguay, Wanda Sloan, Warren Hood, William Twaite, John Hunt, Eric Harvey, Randy Goers, Joseph Mastandrea, Shayla Prezas, Moris Cabezas, Autumn Schwab

Call-ins: Sam Greenberg, Holley Wade, Phillip Scearce, Derek Doughty,

Indicated they could not attend: Dirk Palmer, George Magnon, Michael Taylor, Bonnie Bush, Alison Adams, Scott Paine, Sharon Tarman, Sally Cook, Garry Lisiewski, William Bracken, Sandy Tudor, Ted Williams, Rich Claredon, David Braxton, Frank Coughenour, Robin Bailey, David Rogoff, Allsion Yeh, Bob Callahan, Mark Dubina.

## Hazards and Flood Plan Update

**Monday, August 18**

A series of meetings will be held in several areas of the county to provide residents in all of Hillsborough County, including Tampa, Temple Terrace and Plant City, information about the 2014 update to Hillsborough County's Local Mitigation Strategy and Floodplain Management Plan (LMS). The LMS is the "all hazards" guide developed to provide the community information as to what risks, both natural and human-made, they face while living in Hillsborough County and mitigation techniques residents and businesses can implement to help lessen and even eliminate the risks. Hazards in Hillsborough County include floods, wildfires, tornados, thunderstorms, and hurricanes.

# Public Information Meetings
## Countywide Hazards and Flood Plan Update

A series of meetings will be held in several areas of the county to provide residents in all of Hillsborough County, including Tampa, Temple Terrace and Plant City, information about the 2014 update to Hillsborough County's Local Mitigation Strategy and Floodplain Management Plan (LMS).

The LMS is the "all hazards" guide developed to provide the community information as to what risks, both natural and human-made, they face while living in Hillsborough County and mitigation techniques residents and businesses can implement to help lessen and even eliminate the risks. Hazards in Hillsborough County include floods, wildfires, tornados, thunderstorms, and hurricanes.

The meetings will have an open house format. Public Works Hazard Mitigation staff will:

- Answer questions and receive suggestions from residents
- Present the process of how the 2009 LMS is being updated
- Provide information about what local government is doing to mitigate hazards
- Explain how residents can take action to protect their family, business, and property

### Attend any of the following meetings:

**Monday, Aug. 18 at 6:30 p.m.**
SouthShore Regional Service Center
410 30th St. SE, Ruskin

**Thursday, Aug. 21 at 6:30 p.m.**
Mango Recreation Center
11717 Clay Pit Road, Seffner

**Monday, Aug. 25 at 6:30 p.m.**
University Area Community Development Corporation
14013 N. 22nd St., Tampa

**Monday, Sept. 8 at 6:30 p.m.**
Bloomingdale Regional Public Library
1906 Bloomingdale Ave., Valrico

**Monday, Sept. 15 at 6:30 p.m.**
Upper Tampa Bay Regional Library
11211 Countryway Blvd., Tampa

For more information on the County's Hazard Mitigation Programs, visit **www.HillsboroughCounty.org/HazardMitigation.**

All meeting facilities are accessible in accordance with the Americans with Disabilities Act. Additional necessary accommodations will be provided with a 48-hour notice. For more information, call Steve Valdez, Citizen Engagement Manager, at (813) 272-5275. TTY: (813) 301-7173. *Para información, llamar al (813) 272-5275.*

## Countywide Hazards and Flood Plan Update

Visitor Questionnaire

Welcome!

Please browse around the room and read the presentation boards. After doing so, please answer the questions below as to your thoughts about what risks you might face as a resident of Hillsborough County.

Make sure to take a look at the large FLASH Cards that describe different risks and methods of reducing your risk.

Please feel free to share any additional comments, questions or concerns in the space below the questions.

Thank you for visiting.

1. After reading the list of Risks \ Threats, are there any threats not listed that could affect you and your home?

   Please list any risks or threats Slope erosion (for homes on a hill)

2. After looking at the enlarged FLASH Cards, are actions listed sufficient to protect yourself and your home?

   ☒ Yes ☐ No

3. After looking at the board listing Community Mitigation Projects; do these possible projects reduce threats in our community?

   ☒ Yes ☐ No

   Do you have any suggestions for new projects?

   no.

Additional comments:

The displays were thorough and well done. Thank you for an awesome presentation for Hazard Mitigation. Very informative & important as we deal with climate change.

# County Hazards And Flood Plan Update Public Information Meetings Scheduled

By Tamas Mondovics

County officials began hosting a series of five meetings last month to provide residents information about the 2015 update to Hillsborough County's Local Mitigation Strategy and Floodplain Management Plan (LMS).

The meetings, hosted in an open house format, held in Ruskin, Seffner and Tampa are intended for residents of unincorporated Hillsborough County, Tampa, Temple Terrace and Plant City and will run until Monday, September 15.

The LMS is the "all hazards" guide to provide the community information about risks such as floods, wildfires, tornados, thunderstorms, and hurricanes that they could possibly face while living in Hillsborough County and the mitigation techniques that residents and businesses may implement to lessen the risks.

According to County Senior Planner Michael Rimoldi, County staff are at each meeting to assist residents with their safety concerns, receive suggestions as well as present the process of how the last (2009) LMS plan is being updated.

"We are here to provide information about what local government is doing to mitigate hazards, and explain how residents may take action to protect their family, business and property," Rimoldi said.

One of the first to arrive to the meeting was Elizabeth Ciesla, who has recently moved to Hillsborough County. As a newcomer to the area Ciesla was pleasantly surprised by what was presented.

"I am specifically interested in the flooding risk and how the County is helping residents to be prepared for it," Ciesla said. "I want to stay knowledgeable and have found the meeting informative."

The County is required by the Florida Division of Emergency Management, FEMA and the State to maintain a Local Mitigation Strategy and conduct a major review and update every five years in order to receive state and federal pre- and post-disaster mitigation grant funds.

"The key is to work closely with residents, who for the most part know very well their own area's vulnerabilities," said County Hazard Mitigation Program Manager Eugene Henry adding that vulnerability does not change. "It is what we do about reducing the effect or minimize the possible damage."

I would like to see info. on hazardous material traveling by rail through the county, i.e. to/from the port. Specifically, what type of cargo and what amount/ frequency plus plans for informing public of risk or crisis. Is the risk increased as fuels/cargo changes, and rail-car fleet ages? Does CSX inspect them?

Comment Form

Name: Darryl Creighton with Temple Terrace Business Center, Inc.

Address:

Please provide us with any additional comments regarding the Hazards and Flood Plan Update Meeting

I am concerned with the flooding occuring over my property at 5802 E Fowler (NE corner of Fowler + 58th St.) due to the stormwater ditches not functioning at that location. Water overflows from the ditch over my property and parking lot and then traverses to the real retention ponds overflowing at and then flooding the rear parking lot with several inches of runoff from Fowler. ~~The water seem~~

## Countywide Hazards and Flood Plan Update

Visitor Questionnaire

Welcome!

Please browse around the room and read the presentation boards. After doing so, please answer the questions below as to your thoughts about what risks you might face as a resident of Hillsborough County.

Make sure to take a look at the large FLASH Cards that describe different risks and methods of reducing your risk.

Please feel free to share any additional comments, questions or concerns in the space below the questions.

Thank you for visiting.

1. After reading the list of Risks \ Threats, are there any threats not listed that could affect you and your home?

   Please list any risks or threats_____

2. After looking at the enlarged FLASH Cards, are actions listed sufficient to protect yourself and your home?

   ☑ Yes ☐ No

3. After looking at the board listing Community Mitigation Projects; do these possible projects reduce threats in our community?

   ☑ Yes ☐ No

   Do you have any suggestions for new projects?

   _____

## Hazards and Flood Plan Update

**Monday, September 8**

A series of meetings will be held in several areas of the county to provide residents in all of Hillsborough County, including Tampa, Temple Terrace and Plant City, information about the 2014 update to Hillsborough County's Local Mitigation Strategy and Floodplain Management Plan (LMS). The LMS is the "all hazards" guide developed to provide the community information as to what risks, both natural and human-made, they face while living in Hillsborough County and mitigation techniques residents and businesses can implement to help lessen and even eliminate the risks. Hazards in Hillsborough County include floods, wildfires, tornados, thunderstorms, and hurricanes.

## Countywide Hazards and Flood Plan Update

A series of meetings will be held in several areas of the county to provide residents in all of Hillsborough County, including Tampa, Temple Terrace and Plant City, information about the 2014 update to Hillsborough County's Local Mitigation Strategy and Floodplain Management Plan (LMS).

The LMS is the "all hazards" guide developed to provide the community information as to what risks, both natural and human-made, they face while living in Hillsborough County and mitigation techniques residents and businesses can implement to help lessen and even eliminate the risks. Hazards in Hillsborough County include floods, wildfires, tornados, thunderstorms, and hurricanes.

The meetings will have an open house format. Public Works Hazard Mitigation staff will:

- Answer questions and receive suggestions from residents
- Present the process of how the 2009 LMS is being updated
- Provide information about what local government is doing to mitigate hazards
- Explain how residents can take action to protect their family, business, and property

### Attend any of the following meetings:

**Monday, Aug. 18 at 6:30 p.m.**
SouthShore Regional Service Center
410 30th St. SE, Ruskin

**Thursday, Aug. 21 at 6:30 p.m.**
Mango Recreation Center
11717 Clay Pit Road, Seffner

**Monday, Aug. 25 at 6:30 p.m.**
University Area Community Development Corporation

Comment Form

Name: MIKE RIMOLDI (STAFF)

Address:

Please provide us with any additional comments regarding the Hazards and Flood Plan Update Meeting

ALTHOUGH MOST DID NOT COMPLETE COMMENT FORMS, THE MOST COMMON RESPONSE FROM THE 30+ RESIDENTS WHO ATTENDED WAS THE GENERAL DESIRE FOR MORE INFORMATION YET THEIR LACK OF AWARENESS OF WHERE TO FIND IT.

A COMMON RESPONSE FROM ATTENDEES WAS APPRECIATION ON WHERE AND HOW TO FIND THE RISK/THREAT/MITIGATION MATERIAL.

Please return form to: Steve Valdez

Comment Form

Name: Hannah Armen + Jon Armen

Address: 4923 Bay Crest Dr. Tampa, FL 33615

Please provide us with any additional comments regarding the Hazards And Flood Plan Update Meeting

We are grateful for this opportunity to learn about risks and mitigation options for our area. It was wonderful to speak with professionals about preparation and possible after care steps to take when an incident has occured. Thank you for this opportunity.

Please follow up regarding repetitive flood loss.

Public Meeting
Monday, Sept. 15, 2014

Comment Form

Name: ED AUSTIN ED.AUSTIN@SAINTLEO.EDU Phone (352) 467-0554

Address: 8802 LUMINARIA LN. ODESSA, FL 33556

Please provide us with any additional comments regarding the Hazards And Flood Plan Update Meeting

RE: LAKE OSCEOLA – ODESSA

1) The Lake Flooded 2 years ago

2) LAKE IS VERY high JUST NOW.

3) Wyndham LAKES Retention Ponds OVERFLOW into the Lake.

4) * I Believe the OUTFLOW to GUNN HWY Duct IS Blocked w/ SILT, SEDIMENT AND FOLIAGE

I also Believe the OUT FLOW DUCT ON GUNN HWY WAS NEVER IMPROVED when the SUBDIVISION originally WAS PUT IN to accomodate & Take care of this Looming ISSUE.

Please return form to: Steve Valdez
Citizen Engagement
21st Floor, County Center
P.O Box 1110, Tampa, FL 33601
e-mail to valdezs@hillsboroughcounty.org
or fax to: 813-272-7078

CAN we get the OUTFLOW CLEARED to help the Lake achieve NORMAL Levels?

Thank you.

Ed AUSTIN

## Countywide Hazards and Flood Plan Update

Visitor Questionnaire

Welcome!

Please browse around the room and read the presentation boards. After doing so, please answer the questions below as to your thoughts about what risks you might face as a resident of Hillsborough County.

Make sure to take a look at the large FLASH Cards that describe different risks and methods of reducing your risk.

Please feel free to share any additional comments, questions or concerns in the space below the questions.

Thank you for visiting.

1. After reading the list of Risks \ Threats, are there any threats not listed that could affect you and your home?

   Please list any risks or threats Electrical grid failure due to terrorism or computer virus

2. After looking at the enlarged FLASH Cards, are actions listed sufficient to protect yourself and your home?

   ☒ Yes ☐ No

3. After looking at the board listing Community Mitigation Projects; do these possible projects reduce threats in our community?

   ☐ Yes ☐ No

   Do you have any suggestions for new projects?

   dredging Sweetwater Creek to increase flow & reduce flood risk

Additional comments:

## Hazards and Flood Plan Update Public Meeting

**Wednesday, October 8**

Hillsborough County residents and business owners, including those in Tampa, Temple Terrace and Plant City, are invited to participate in developing the community's risk mitigation strategy by providing feedback on the update to Hillsborough County's Local Mitigation Strategy and Floodplain Management Plan (LMS). The LMS is the "all hazards" guide developed to provide residents and businesses with information about the risks they could possibly face while living in Hillsborough County, such as floods, wildfires, tornadoes, thunderstorms and hurricanes. The guide also outlines mitigation techniques to help lessen those risks. The meetings will have an open house format. Questions and suggestions are

## Countywide Hazards and Flood Plan Update

Hillsborough County residents and business owners, including those in Tampa, Temple Terrace and Plant City, are invited to participate in developing the community's risk mitigation strategy by providing feedback on the update to Hillsborough County's Local Mitigation Strategy and Floodplain Management Plan (LMS).

The LMS is the "all hazards" guide developed to provide the community information as to the risks; such as floods, wildfires, tornados, thunderstorms, and hurricanes; that they could possibly face while living in Hillsborough County and the mitigation techniques that residents and businesses may implement to help lessen the risks.

The meetings will have an open house format and Public Works Hazard Mitigation staff will:

- Explain how residents can take action to protect their family, business, and property
- Provide information about what local government is doing to mitigate hazards
- Present the process of how the LMS is being updated
- Answer questions and receive suggestions from residents

**Attend any of the following meetings:**

**Wednesday, Oct. 8 at 6:30 p.m.**
Mango Recreation Center, 11717 Clay Pit Road, Seffner

**Thursday, Oct. 9 at 6:30 p.m.**
Bruton Memorial Library, 302 McLendon St., Plant City

**Monday, Oct. 13 at 6:30 p.m.**
Bloomingdale Regional Public Library, 1906 Bloomingdale Ave., Valrico

***Wednesday, Oct. 15 at 6:30 p.m.**
Upper Tampa Bay Regional Library, 11211 Countryway Blvd., Tampa

**Thursday, Oct. 16 at 6:30 p.m.**
Jan Platt Regional Library, 3910 S. Manhattan Ave., Tampa

**Monday, Oct. 20 at 6:30 p.m.**
University Area CDC, 14013 N. 22nd St., Tampa

***Wednesday, Oct. 22 at 6:30 p.m.**
SouthShore Regional Service Center, 410 30th St. SE, Ruskin

**Tuesday, Oct. 28 at 6:30 p.m.**
Omar K. Lightfoot Recreation Center, 10901 N. 56th St., Temple Terrace

**The meetings on Oct. 15 and Oct. 22 will have bilingual staff available to provide information and answer questions in Spanish.*

For more information on the County's Hazard Mitigation Programs, visit **HillsboroughCounty.org/HazardMitigation**.

All meeting facilities are accessible in accordance with the Americans with Disabilities Act. Additional necessary accommodations will be provided with a 48-hour notice. For more information, call Steve Valdez, Citizen Engagement Manager, at (813) 272-5275. TTY: (813) 301-7173. *Para información, llamar al (813) 272-5275.*

Q* How can we find out when the drainage / stormwater runoff will be updated? We live near Alafia Blvd & So Kings Ave; there has been un-permitted development causing localized flooding. It is also an area that will be constructing a townhome development on (S. Kings Ave) which will increase run-off & drainage further south into the Alafia River.

I have recently purchased a home in the VALRICO, FL area, and the property is considered a Flood zone A and there is no baseline elevation for the address. I would like to know if there is one on file since I am currently paying a high rate for insurance. My home number is 813 661 4858 and my email is LESTER.MARTINEZRAMIREZ@GMAIL.COM. Thank you for any help you can provide.

## Hazards and Flood Plan Update Public Meeting

**Monday, October 20**

Hillsborough County residents and business owners, including those in Tampa, Temple Terrace and Plant City, are invited to participate in developing the community's risk mitigation strategy by providing feedback on the update to Hillsborough County's Local Mitigation Strategy and Floodplain Management Plan (LMS). The LMS is the "all hazards" guide developed to provide residents and businesses with information about the risks they could possibly face while living in Hillsborough County, such as floods, wildfires, tornadoes, thunderstorms and hurricanes. The guide also outlines mitigation techniques to help lessen those risks. The meetings will have an open house format. Questions and suggestions are

# Public Information Meetings
## Countywide Hazards and Flood Plan Update

Hillsborough County residents and business owners, including those in Tampa, Temple Terrace and Plant City, are invited to participate in developing the community's risk mitigation strategy by providing feedback on the update to Hillsborough County's Local Mitigation Strategy and Floodplain Management Plan (LMS).

The LMS is the "all hazards" guide developed to provide the community information as to the risks; such as floods, wildfires, tornados, thunderstorms, and hurricanes; that they could possibly face while living in Hillsborough County and the mitigation techniques that residents and businesses may implement to help lessen the risks.

The meetings will have an open house format and Public Works Hazard Mitigation staff will:

- Explain how residents can take action to protect their family, business, and property
- Provide information about what local government is doing to mitigate hazards
- Present the process of how the LMS is being updated
- Answer questions and receive suggestions from residents

**Attend any of the following meetings:**

**Wednesday, Oct. 8 at 6:30 p.m.**

Agenda Nov 12,
2014 Meeting L...

Hello LMS WG,

I hope this message finds you well.

We are planning our next LMS WG meeting for Wednesday, November 12, 2014 at 1:30 pm at County Center. Same location as before on the 22nd Floor in the conference room immediately to the right as you exit the elevators.

Please find the agenda attached.

For those who would like to call in, here is the information:
Telephone number: 1-888-670-3525
Participant passcode: 9173425304 then #

And as a follow-up to one of my previous messages, we hope to be sending out Section I of the LMS for your review sometime soon.

Thanks!

Mike

# Local Mitigation Strategy (LMS) Working Group
# Meeting Notes from November 12, 2014

I. Welcome and Introductions
- The LMS Working Group meeting was called to order at 1:32 p.m.
- LMS Chair, Randy Goers, called the meeting to order. Self-introductions were performed for those present at the meeting, including call-ins on the conference line.
- Minutes from 10/08/2014 meeting were reviewed and approved.

II. Nominations
- Nomination form for 2015 LMS Working Group Chair and Vice-Chair was distributed, at which time it was noted that Angie Leslie will be stepping down as Vice-Chair.
- Nominations are to be submitted prior to the December 10th LMS meeting and should be submitted to Eugene Henry or Michael Rimoldi.

III. LMS Annual Update Pursuant to F.A.C.
- Nominations were discussed and identified that the Board of County Commissioners approves the vote for the Chair and Vice Chair annually.
- The Board of County Commissioners annual approval of the LMS process was discussed, which included the identification of the following items:
  - See list on past agenda
- Project priorities
  - As part of our annual update, priorities of existing projects *are reviewed no less than once per year.*
  - During December 10th meeting, *any proposed* projects *to be included with the current project list* will be reviewed. *Respective projects will be reviewed with the full list of projects and any modifications will be considered and voted upon.*
  - There was discussion about the number of projects on our current list.
  - *Bill Twaite of the Hazard Mitigation team discussed the project list and summarized the current process to update the list for the annual update and projects submitted to be included for approval by the LMS WG and subsequently by the Board of County Commissoners (if the LMS WG approves respective projects).*
- Community Rating System (CRS)
  - Annual CRS certification cycle *process* is complete.
  - The Board approved *the Unincorporated annual report and recertification documents in September* 2014.
  - Final approved Certification is available online at http://www.hillsboroughcounty.org/DocumentCenter/View/13026
- Critical Facilities

- Prior to the 2015 storm season, *it is recommended* the LMS WG focus *a review of ~~on~~ projects associated with* critical facility projects for sustaining infrastructure lifelines.

- Repetitive flood loss list
  - *Unincorporated repetitive flood-loss lists were reviewed during the past year, and the City of Tampa worked with their list as well.*
  - Hillsborough County Public Works submitted three (3) additional repetitive flood loss projects, including Chipaway Drive (Apollo Beach), W. Shell Point Road (Ruskin) and Maydell Drive (Historic structure)

IV. Local Mitigation Strategy Update

- Outreach Meetings
  - Eight (8) additional Outreach meetings (13 in total) were conducted in Hillsborough County communities, including City of Tampa, City of Temple Terrace and City of Plant City.
  - Additional Outreach meetings will be held in Spring 2015.
  - Average attendance at meetings was between 20-30 residents.
- New projects
  - William Twaite spoke about the mitigation project submittal process and how projects are accepted for group review.
  - The deadline for submitting new mitigation projects *for the annual updated is* November 28, 2014.
  - Projects will be reviewed during December 10th meeting.
- LMS Document Update
  - Section I – has been submitted for comments
  - Section II – should be submitted for comments within new few days
  - Section III – still receiving input from individuals; also identified cyber threats as a hazard to be included in Section III

V. Background Update – Wildfire Plan

- Policy changes to the Community Wildlife Protection Plan (CWPP) are being vetted by Chiefs Kelly and Patterson.
- CWPP expected to be adopted after LMS submittal.
- Meeting scheduled on January 14, 2015.

The meeting was adjourned at 3:00 p.m.

Attendees: Paul Ford, Randy Goers, Robin Bailey, Robin Caton, Eugene Henry, John Newton, Kimberly Schmiedecke, Angie Leslie, Barbara Spaulding, Brady Smith, Steven Castonguay, Ted Williams, William Twaite, Moris Cabezas, Mo Chiodini, Pattie Fox, Elizabeth Dunn, Chelcy Forbes, JiSun Park, Austin Davis, Manny Perotin, Matthew Lewis, Christina Hummel, Earl Dame

Call-ins: Calvin Thornton, Holley Wade

Indicated they could not attend: Sue Connell, Chin Ho, Matt Wilbur, Sally Cook, Rich Clarendon, Annette Doying, Sarah Chason, Allison Yeh, Frank Coughenour, Elizabeth Strom, Susan Mueller, Bob Callahan.

|---|---|
| **Subject:** | LMS Working Group meeting |
| **Location:** | County Center, 22nd Floor, Lobby Conference room |
| **Start:** | Wed 12/10/2014 10:00 AM |
| **End:** | Wed 12/10/2014 12:00 PM |
| **Show Time As:** | Tentative |
| **Recurrence:** | (none) |
| **Meeting Status:** | Not yet responded |
| **Organizer:** | Rimoldi, Michael |
| **Required Attendees:** | LMS Working Group 2014-15 |

Hello LMS WG,

Our last meeting of 2014 will be held Wednesday, December 10th at County Center. I will be sending the agenda and meeting notes from the previous meeting under a separate email as for some reason Outlook will not allow them to be attached to this invitation???

We will be electing the Chair and Vice-chair at this meeting so ballots will be provided at the meeting. We will also accept ballots submitted via email if they are sent to either myself or Gene Henry directly. I will be sending out a separate email detailing this with an attached ballot in the next few days.

If you cannot make the meeting in person, you are always welcome to call in. The dial-in information follows:

Toll free number: 1 888 670 3525
Participant passcode: 1080136904 then #

Just as a reminder, please don't place the call on "Hold" if you do call in as then it plays your hold music over the conference line.

Look forward to seeing everyone next week.

Mike

Attachment 4 - LMS List of Prioritized Projects and Initiatives

**HC LMS Goal: To minimize the effects of any potential natural or man-made disasters on our community and its infratructure.**

| Proj/Obj # | Name of Project | Description of Project | Hazards Mitigated | Funding Source | Jurisdic-tion Location | Agency Resposible for Implementation | Estimated Costs | Status | Timeframe for Completion | Mitigate new or existing? (N/E) | Last Updated |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | **Objective 1- Public Education** | | | | | | | | | | |
| 1.1 | Neighborhood Information Program | Program to be further developed. Work with various Neighborhood Liaisons in providing information and promoting private sector involvement in completing mitigation projects. | All Hazards | Homeland Security Grant Program Grants-CERT & Citizen Corps, CO Funds | CW | Neigh. Relations/OEM/PW | N/A | In Progress | >12 months | E | 12/10/2014 |
| 2.1 | Retrofit and/or Acquisition Existing Structures | Currently working through State grant process to implement through the County's Hazard Mitigation Program/Section. This is primarily a public information program designed to encourage residents to retrofit existing structures to better withstand natural hazards. This project item will support FMA requests associated with changes due to BW-12. | All Hazards | Flood Mitigation Assistance and Hazard Mitigation Grant Program | CW | Hazard Mitigation (HazMit), Property Owners | N/A | In Progress | >12 months | N/A | 12/10/2014 |
| 3.1 | Hazard Mitigation Education Program | Provide residents and business owners with current information on methods and procedures for completing retrofits and in protecting themselves against potential disasters. Measures include: brochures and Hazard Mitigation Web Page . . . | All Hazards | CO Funds, SWFWMD FLASH | CW | Local Mitigation Strategy W.G. | N/A | In Progress | >12 months | N/A | 12/10/2014 |
| 5.1 | Hazard Mitigation Website Development | Review of planning and implementation procedures | All Hazards | CO HazMit Funds | CW | Hazard Mitigation | | In Progress | >12 months | N/A | 12/10/2014 |
| 7.1 | Private Sector Coordination | Currently being strengthened through County OEM and Hazard Mitigation Sections. Ensure representatives from MacDill Air Force Base, Port of Tampa, Westshore Business Alliance, Tampa Downtown Partnership, Greater Tampa Chamber of Commerce, Ybor City Chamber, come together to cooperate. | All Hazards | County Funds | CW | OEM | N/A | Ongoing | >12 months | N/A | 10/22/2009 |
| | **Objective 2: Coordination** | | | | | | | | | | |
| 8 | Costs and Benefits of Community Resiliency (includes Sea Level Rise Adaptation) Strategies | Use existing tools and create new data to evaluate the vulnerability, impacts and economic costs of sea level rise for the Tampa Bay area under different sea level rise scenarios, as well as to provide adptation options for the region. | All Hazards | FEMA/NOAA/FHWA | CW | Public Works/MPO/USF | UK | Ongoing | >12 mos | N | 12/10/2013 |
| 8.1 | A Spatial-Temporal Econometric Model to Estimate Costs and Benefits of Adaptation Strategies to mitigate areas of vulnerability to the County, which will update the LMS. | Use existing NOAA tool to evaluate the vulnerability, impacts and economic costs of sea level rise for the Tampa Bay area under different sea level rise scenarios, as well as to provide adptation options for the region. | Sea-Level Rise Flood | Florida Sea Grant | CW | Dept. of Urban & Regional Planning, University of Florida | $300,000 | Current | <12 mos -- in process | N | 12/10/2013 |
| 8.2 | Stormsurge Chemical Contamination Study | Utilize Phase I Study of impacts from a stormsurge event; and, determine effective mitigation measures for structures and chronic or acute impacts to persons and the environment. | Floods | DHS Issue Grants | CW | Hazard Mitigation and the Office of Emergency Management | $120,000 | Phase 1 Complete - Phase 2 In Process | >12 months | E | 12/10/2013 |
| 8.3 | Floodplain Management Plan Update | Review of planning and implementation procedures (5-year Update Floodplain Management Plan) | Flooding | Flood Mitigation Assistance and Hazard Mitigation Grant Program | CO | Local Mitigation Strategy W.G./Neigborhood Relations, OEM, Plan. Comm. | $33,300 | In process | >12 mos | N/A | 12/10/2014 |
| | **Objective 3: Development Management** | | | | | | | | | | |
| 22.3 | Eastside Canal Masterplan Projects | Projects identified in the Master Plan | Flooding | Not in CIP | PC | Engineering | $7,500,000 | In progress. | >12 months | N | 09/15/2009 |
| 24.3 | Moody Avenue S/Stroud Avenue West | Extension of stormwater system to address flooding at low area in road. | Flooding, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CT | Tampa Stormwater Department | $40,000 | Complete | >12 mos | E | 12/102014 |

Legend: UK = Unknown, CW = Countywide, CO = County (unincorporated areas only), CT = City of Tampa, PC = City of Plant City, TT = City of Temple Terrace

|---|---|---|---|---|---|---|---|---|---|---|---|
| 108.9 | Buckhorn Creek Pond and Wetland Restoration | Purchase 5 parcels and create 13.5 acre detention pond and wetlands. CONSIDERABLE WQ | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $4,008,600 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 109 | Turkey Creek Surface Water Treatment Area - Site 1 | Divert water from Turkey Creek to a treatment marsh. WQ 28 ACRE/FT | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $4,041,000 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 109.1 | Itchepackasassa - IPC C | Create large marsh in-line or off-line. SOME WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $4,800,600 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 109.2 | Blackwater - BLK 1 with Polk | Divert flow to a 30 to 50 acre treatment area, comprised of modifications to existing wetlands. SOME WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $5,351,400 | Unfunded CIP, projects are prioritized | >12 mos | E | 11/01/2012 |
| 109.3 | CR 579 to Grange Hall Stormwater Restoration | Regrading and replanting streambank. Support invasive species removal and agricultural BMPs. MINIMAL WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $6,143,400 | Unfunded CIP, projects are prioritized | >12 mos | E | 11/01/2012 |
| 109.4 | Williams Property Land Acquisition and Habitat Restoration | Acquire/improve 90 acres for wildlife habitat. Contains three disturbed wetlands. Create shallow foraging pond for Ibis, and passive recreational/educational area. SOME WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $9,806,400 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 109.5 | Egypt Lake Treatment | Treatment for direct stormwater inputs from Habana Avenue and/or other before entering Egypt Lake. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |

Legend: UK = Unknown, CW = Countywide, CO = County (unincorporated areas only), CT = City of Tampa, PC = City of Plant City, TT = City of Temple Terrace

|---|---|---|---|---|---|---|---|---|---|---|---|
| 111 | St. Andrews Detention Pond | Retrofit existing pond in golf course and create 4.6 acre pond. SOME WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $1,476,000 | Unfunded CIP, projects are prioritized | >12 mos | E | 11/01/2012 |
| 111.1 | Bell Creek Pond Improvements - Site 1 | Replace existing riser with bleed-down structure to increase detention time and treatment volume. Create littoral shelf from dredge material. RETROFIT 27 ACRE/FT | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $273,600 | Unfunded CIP, projects are prioritized | >12 mos | E | 11/01/2012 |
| 111.2 | Bell Creek Pond Improvements - Site 2 | Install control structure, expand existing open water, and excavate upland areas to create shallow and deep marshes. RETROFIT 10 ACRE/FT | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $367,200 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 111.3 | Triple Creek Ranch Habitat Restoration | Restore 1,100 acres [acquired former pasture] to provide habitiat based on soils and historic aerials. Restore to pine flatwoods and hardwood hammocks. MINIMAL WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $1,634,400 | Unfunded CIP, projects are prioritized | >12 mos | E | 11/01/2012 |
| 111.4 | English Creek Surface Water Treatment | Divert water from Howell Branch into a treatment area consisting of a sump, open water, and marshes. WQ 7.5 ACRE/FT | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $1,643,400 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 111.5 | Turkey Creek Surface Water Treatment Area - Site 2 | Divert water from Little Alafia River to a treatment marsh. WQ 2 ACRE/FT | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $351,000 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 111.6 | Clay Gully East - CGE 4 | Create a 20 acre stormwater treatment area with outfall on vacant land. SOME WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $2,633,400 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |

Legend: UK = Unknown, CW = Countywide, CO = County (unincorporated areas only), CT = City of Tampa, PC = City of Plant City, TT = City of Temple Terrace

|---|---|---|---|---|---|---|---|---|---|---|---|
| 111.7 | Clay Gully East - CGE A | Restore approx. 50 acres of wet pasture to herbaceous wetlands. GOOD WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $3,339,000 | Unfunded CIP, projects are prioritized | >12 mos | E | 11/01/2012 |
| 111.8 | Clay Gully East - CGE 6A | Create a 30 acre stormwater treatment and retention area. SOME WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $3,398,400 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 111.9 | Hollomans Branch - HBA D | Restore hydroperiod of impacted 40 acre wetland. MINIMAL WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $1,825,200 | Unfunded CIP, projects are prioritized | >12 mos | E | 11/01/2012 |
| 112 | Turkey Creek Surface Water Treatment Area - Site 3 | Divert water from Little Alafia River into a treatment area of a sump, open water, and marshes. WQ 4 ACRE/FT | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $2,350,800 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 112.1 | Sundance Subdivision Improvements - Project 4-1-2 | Develop stormwater wetland system in the portion of property used for agriculture and integrate it with the adjacent natural systems. Design system to provide stormwater treatment for flows equivalent to one inch from the S. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $6,258,600 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 112.2 | March Branch - Shell Point Road Stormwater Improvements - 3.2.2 | Construct 15 acre detention pond to treat runoff in agricultural area. SOME WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $4,467,600 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
| 112.3 | Hollomans Branch - HBA E | Increase retention within impacted 90 acre wetland through use of ditch blocks/weirs. Possibly include planting. SOME WQ BENEFIT. | Floods, Hurricanes, and Tropical Storms | Sales Tax, State Revolving Funds, Flood Mitigation Assistance Program, Hazard Mitigation Grant Program, Nonpoint Source Implementation Grants, Watershed Protection & Flood Prevention Progam | CO | County Stormwater (unfunded CIP) | $4,428,000 | Unfunded CIP, projects are prioritized | >12 mos | N | 11/01/2012 |
